

St. John's Home School Initiative **Come Soar!**

What does partnership look like?

St. John's is excited to announce a partnership with Homeschool families starting in our 2015-2016 school year.

St. John's seeks to offer K-8th grade homeschool families a flexible educational experience and the opportunity to participate in our sports and enrichment possibilities. It is our wish to support your family in your decision to educate at home, while welcoming you to explore our additional educational and athletic programs.

"But those who wait for the Lord shall renew their strength; they shall mount up with wings like eagles; they shall run and not be weary; they shall walk and not be faint."
